Discussion Guide

Getting Started

What amazes you the most about how God has created us (humans)?

Discussion

1. Read Psalm 139:13-16-together.

→ Read the following comments from a medical Doctor regarding these verses.

As a medical doctor I find these verses fascinating. They describe the development of the fetal child from conception and implantation as an embryo, "my unformed substance...woven in the depths of the earth"(uterine wall); and the development "intricately woven...knitted together" into a "frame" (bony structure). The Hebrews had a knowledge of God's hands working with and through them their entire lives for He was the One who "knitted me together...My soul knows it very well." How precious are the little ones to God.
